Wrap It Up's Fashion Roundup! June 2006*

By Faith Bowman

*Last month, to celebrate my 6th month of fashion reportage, I grabbed 3 hot models, paired them with three amazing makeup artists, and dressed them in clothing from the super original designers... Luckily for us I had a little hookup at the gorgeous James Hotel, so we had a fabulous location, too.

Cyndi Chan's line, Ori-en, is a blend of east and west that equals perfection! It's all about a girlish innocence with a hint of seduction...
